

ORDERING INFORMATION ÜLINDER

Examples for the overall dimension of the electrical cylinder.

- A** = e. g. locking side in 35 mm
- B** = e. g. knob side in 35 mm
= cylinder size, e. g. in 35/35 mm

Note:

- A** = always outside
- B** = always inside

Outside = Measurement from the centre of the flying mullion screw to the outer edge of the rose or the fitting on the outside part of the door.

Inside = Measurement from the centre of the flying mullion screw to the outer edge of the rose or the fitting on the inside part of the door.

Minimum dimension of the profile cylinder 26/26 mm or 30/30 mm, each side extendable in 5 mm increments up to a maximum length of 200 mm on each side.
