

Dear Sir or Madam,

since the end of 2020 we have been experiencing a significant and sustained price increase in all areas. There are several reasons for this. The global corona pandemic, production shortages and difficulties in sourcing raw materials, to name a few.

Brass has increased 35%, Zamak 30%, steel 80%, plastic 20% and stainless steel 30% recorded. In addition, energy packaging transport costs are ect. increased significantly.

We will therefore **increase** our catalog prices for **“Faszination Beschläge 03” by 9% to allow for the adjustment from 6%** a few years ago, or in the case of **“Zeitlos 04” by 9%**.

The new prices apply from 02/01/2022. Orders placed by January 31, 2022 will still be made under the previous conditions.

With best regards from Upper Bavaria,

Your Südmetall-Team
